COMING OF AGE

We are not children anymore, but adults
It is time for us to inherit
The destiny
We have built for ourselves.
This parting from our childhood ways
Marks the coming of age
Of a new, bold generation . . .
One with many responsibilities.
Responsibilities more grave
Than any ever faced before.
Our earth has suffered
Insult after insult to her natural beauty.
It is up to us to heal her.
For we must be the peacemakers
This world has seen enough grief.
Violence is not the answer to our problems
And never will be.
The real battle is within ourselves.
The maze of choices ahead
Will require a depth of understanding,
Compassion, justice and intelligence,
That perhaps was never required
To such an extent
From any generation before us.
But we will succeed.
When every individual has conquered
Within him or herself
The shadows of hate, fear, and greed
That lurk in every heart
Then, shall we know that we have come of age
And that the human race has learned
The greatest lesson of all:
Love

FOR IDALIA CORTES

ONLY YOU

You're the one who fits into my master plan,
You're heart with mine is like being in a wonderland.
You're the one who makes my heart skip a beat,
You're the one I've ever wanted to keep,
You're the one who makes me feel so warm and safe,
You're the one that brought me to that special place,
You're the one I want to hold my love so true,
And I will always be in love with you.
You're the one who holds the key of the secrets inside of me,
You found my silly side, you found the one that tried to hide,
You took the chance and created our romance,
You gave me eyes to see, with you is where I want to be.
Only you can make my dreams come true.
Only you can make my grey skies blue.
You have helped me see that it's only you for me.

I LOVE YOU.

A message for my niece Annette,

Oh time! Never ending cycle! You do not slow, you do not stop but forever forward. Oh so deceiving — you seem to slow; even to stop, but we know nothing can hold you back. Moving ever so steadily at your own pace, producing tears and laughter in every face.

Oh foolish men who know not thee having to toil infinitely — not knowing the pleasure your changes bring for you always return where you begin. Yes, you have seven days, twelve months and four seasons — but isn't this all the more reason to live? Not in vain, but setting aside all pain for doesn't spring follow the winter, summer the spring, fall the summer and back to winter again.

All those clichés, "tomorrow is another day", but doesn't tomorrow become today and today yesterday?

Oh time — infinite cycle, let me live your every second; find pleasure in your variety; take pride in all endeavors; learn from my failures and mingle in this society for our stay is short.

Baby, the way I feel about you, I can't put into words. The best I can do is to listen to the song by "Elvis" — "The Wonder of You". That's what the words in my heart say, but even more. You're my dream come true. I LOVE YOU. May every dream you ever dreamed and every "I Wish" you hoped for come true. Because you deserve nothing less. Baby, you're very special to me. Like the card said, A person like you only happens once in a lifetime. I am very glad you happened in mine.

We've only just begun — to live, White lace and
promises, A kiss for luck — and we're
on our way

Before the rising sun — we fly, So many roads
to choose, We start out walking
and learn to run

And yes, we've just begun
Sharing horizons that are new to us,
Watching the signs along the way
Talking it over just the two of us,
Working together day by day, together

And when the evening comes, we smile,
So much of life ahead, We'll find
A place — where there's room
to grow

And Yes, We've Just Begun!!!!!!!!

TO: ANA DIAS

Just Yesterday We Met,
Playing a Game That We Set.
We Met at a Dance,
That Turned to Romance.
Going Thru Bad Times,
But Never Any Lies.
We Reached the Stage,
That We Got Engaged.
Here I Finish What I Have to Say,
But the Rest Will Come Someday!!!

LOVE ALWAYS,
YOUR FUTURE HUSBAND,
AMERICO

We look upon the future
And hope we see success
We hope it's like the last Four Years
For that we must confess.

Freshmen year was just so crazy
As sophomores we just got lazy
Junior year was better yet
But senior year we'll never forget.

COQUI,

When the sun shines all beauty is shown. As in the mind that thinks, all knowledge is known. We go through life, experiencing things. Like a bird in flight, using its wings. We see and we say, as we walk and feel like cars and motion on all four wheels. The time that passes is time to be used, not to just sit there useless and abused. We are the present, future and past. May our existence be meaningful and forever last.
